## Tombstones

As we are not very gifted in the science of carving, we thought it may be a good idea to do something easier, or at least we thought it would be easier, to make tombstones out of plywood and stencil on the letters. So we ordered the tombstone patterns from Winfield and bought some plywood and had at it.

### Materials List

Plywood

Winfield Pattern #HYDSET6 (combined pak of 24)

Grey Outdoor Acrylic Paint

Obtained from  
Omarshantedtrail.com

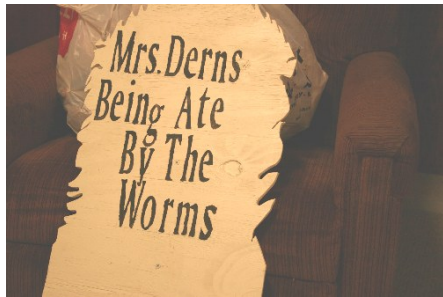

Here is Jerry & Tyler after Jerry had cut out all the forms. Each tombstone got painted with the grey paint. We did not have time to get Epitaphs on them but will work on that for the 2008 season. Also we are clueless on how to give them the beaten look but will search around the fellow haunters sites for info.

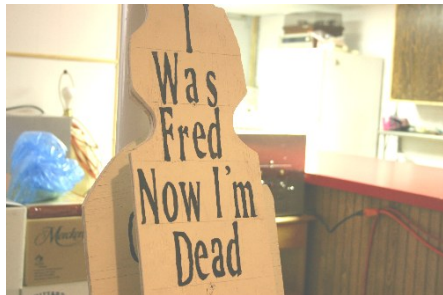

Owned from  
Omar's Haunted Trail.com

We have quite a bit more work to do on the cemetery for the 2008 season. Not only do more pillars have to be built but we are adding another small section of fence.

The pillars have to have their peak tops added and the lights that go on the front of them.
