Skull & Crossbones Headstones

The **Skull & Crossbones headstone** is a multi-layered styrofoam creation. You won't believe what the moss was made from! Read more to see how we did it.

The **Skull & Crossbones Headstone** was made from two layers of 2 inch thick styrofoam. The second layer consisted of the carved skull and crossbones. The layers were attached with regular white glue and toothpicks inserted to hold the pieces together while drying. The MOSS was made from dryer lint, green paint and elmers glue!
