

Easy, Do-It-Yourself Ghost

January 24, 2008

Today is a good time as any to scare your friends. And here's a new trick on how to get a few good screams. You simply need the fence you would normally use around your house. This should be easy to shape and stand up on its own. Now simply follow the pictures, shaping is the easy part. Whenever on a picnic, fishing or hiking, you can place your ghost in the forest and wait for the effect!
