

Celynn's Mummy Room Phantoms in the Park 2000 & 2001

<http://hometown.aol.com/celynn/page2.html>

The color is off on some of these pictures and they appear much more brown than they really were.

The pictures don't show the scarabs painted on the floor and running up the walls. Also please keep in mind that these pictures are taken with bright lights and the rooms look much different at night.

Obtained from
Omarshauntedtrail.com

This picture was cropped and you can't see the hieroglyphics and Egyptian graphics painted on this popup chest. The volunteer wanted to make sure he was part of the picture and sat on top of the chest, hiding all the graphics, he should have been inside the box.

Our photographer used a fish eye lense for these pictures so some may be distorted.

This is the outside area as you came out of the Mummy's tomb. The walls are covered in tinted monster mud with various colors sponged over the base coat.

The eye of Horus was made from 2 inch foam board and painted in Rit Whitner Brightner. A 48 inch blacklight hung over the eye and made it glow.
