# THOR

Thor is HUGE! He stands almost 8 feet tall.

I need a ladder to dress him. Unfortunately, the details in the pictures burned out a little because of the sunshine but you get the idea.

Thor has a hammer (bottom photo). Brother Lucian found these awesome eyeballs at the local Turkey Hill store. They're actually bouncing balls for kids to play with and they fit this mask perfectly.

He inserted finishing nails into the rubber balls, and the nails were then inserted into the styrofoam wig head under the mask.

The arms were purchased from Spencer's and then screwed into the PVC frame. The hammer is wired into his fist.

Thor is very intimidating to little people who have to stretch their necks to look up at him.
