

http://www.agonalhaunts.com/this_is_a_room_a_decide_to_do_as.htm

This is a room I decided to do as my entry room. This room has three gothic style windows. I made the walls from OSB $\frac{3}{4}$ " and 2X4 reinforcement. I the made the design with free hand and used different style lids to make the arcs. I used a paint can lid and a coffee can lid.

Supplies needed for an 8X10' room:

- 8 – 4X8' walls
- Saber saw or saws all.
- Several different size lids.
- Paint – Grey, Black, White.
- Black Screen for screen door replacement – found at Menards for \$25.00 (preferably aluminum for strength). You can use no see-um netting found on line at most hunting and military surplus outlets. I found screen works just as well and is stronger and cheaper.
- Several lengths of 1X1.
- Three strands of rope light – I used Blue to give it a moon type of glow, I suppose you can use red to give it an evil look.
- Strobe light
- Electric switch.
- 16X8' Piece of landscaping material.
- 2 – 8' 1" PVC pipe.
